

Any Time Now

Fall 2009 **Networking for Freedom**
Organizing for Social Justice Number 28

<http://www.atnzine.net>

ATN has a new direction. We first published back in the days when we were about the only anarchist zine in the country. Today, there are a number of fine publications and collectives. We think that some sort of networking between the many projects now occurring in BC is more important than producing a Canada-wide zine. Such networking would help create synergy among the different groups and create a stronger anarchist movement and the focus on the BC region is a practical and necessary step to the building of a peoples movement at a time when increasing corporate control and centralized politics are threatening to devastate our future. For a whole directory see the Anarchist Yellow Pages <http://ayp.subvert.info/index.php>

Please tell us what you are doing and feel free to send in short articles. Are there other projects that ought to be mentioned?

Email: atn@atnzine.net

**No Olympics on
Stolen Land**

Please run off some copies and leave them at your library, coop store, favorite hang-out, etc., Letting people know just how much and how varied anarchist activities are here.

-----**Liberatory Projects in BC**-----

Ahimsazine - We promote peace and freedom as a process of social change and action which is resident in the free spirit of the individual and decentralized social networks. We know that social peace cannot come from political organizations, governments or religion, but that it is a function of the way we live our lives and how we work and play together. We are wishing to contact people who are actively involved in peace issues and could distribute Ahimsazine or who would be interested in writing and editing and building a free network for peace. On-line and printed zine and discussion group. <http://ahimsazine.com/edit@ahimsazine.com>

Anti-Poverty Committee - an organization of poor and working people, who fight for poor people, their rights and an end to poverty by any means necessary. The poor face constant attack under the capitalist system. APC is committed to fighting brutal policies through direct action, mass mobilization, and casework. **We have meetings at our new office every Tuesday from 6 - 7pm at 524 Main Street. Mailing address: PO Box 1, 12 E. Hastings, Vancouver, BC Canada V6A 1N1** <http://apcvancouver.org/> e-mail, apc@resist.ca

----- About Any Time Now -----

We are open to any project, either individual or collective, that is in some manner liberatory – opposed to capitalism, the state, authoritarianism and all forms of domination, and in favor of community based organizing, direct action and self-management.

Editors: Larry Gambone, Dick Martin

For more information about anarchist connections world wide go to the Anarchist Yellow Pages.

The Anarchist Yellow Pages is an international directory of anti-authoritarian groups, publications and self-managed spaces. It is a DIY project that has been realized with the help of libertarian activists from all over the world. Our goal is to help improve contacts and cooperation between the various strands of our divergent movement.
